PROFESSIONAL SUMMARY

Software Engineer with 2+ years building secure, scalable enterprise applications. Proficient in Java, Spring Boot, RESTful APIs, and cloud-deployed microservices. Experienced in GenAI integration, SOLID/OOP design, and Agile delivery — directly aligned with Wells Fargo’s engineering standards.

EXPERIENCE

Associate Software Engineer

Accenture

Aug 2023 – Present

Gurugram, India

- Engineered Java/Spring Boot-compatible REST API-connected enterprise dashboard for 2,000+ users with JWT authentication and OWASP-compliant input validation.
- Drove 40% performance improvement through SQL query optimization and indexing — reduced page load from 3.2s to 1.8s, strengthening SLA compliance for critical reporting workflows.
- Designed and consumed RESTful APIs enabling seamless data exchange between frontend dashboards and backend microservices on cloud-hosted infrastructure.
- Applied OOP, SOLID, and clean architecture principles across codebase; maintained 99.5% uptime through Agile sprints and structured code reviews aligned with security and compliance standards.

PROJECTS

AI Chat Assistant (GenAI + REST API)

[Link](#)

- Built GenAI-powered chat app integrating Groq Llama 3 API; designed RESTful service layer with secure key management, token validation, rate-limit handling, and graceful error recovery.

Family Travel Tracker (Full-Stack + Cloud Deployment)

[Link](#)

- Built Node.js/Express REST API backend with PostgreSQL on cloud (Render); implemented bcrypt auth, SQL injection prevention, and CI/CD pipeline for automated deployment.

Newsletter Website (REST API Integration)

[Link](#)

- Built newsletter platform with Node.js backend, MailChimp API, secure key management and input sanitization.

TECHNICAL SKILLS

Languages	Java, JavaScript (ES6+), SQL, Python (Basic), HTML5/CSS3
Backend & APIs	Spring Boot, Node.js, Express.js, RESTful API Design, JWT Authentication
Messaging/Cloud	Kafka (Event Streaming), Cloud Deployment (Render/Netlify), CI/CD, Git/GitHub
GenAI	LLM API Integration (Groq/Llama 3), Prompt Engineering, AI App Development
Databases	PostgreSQL, MySQL, MongoDB, Query Optimization, Schema Design
Security	JWT Auth, bcrypt, OWASP Practices, Input Validation, SQL Injection Prevention
Concepts	OOPs, SOLID Principles, Microservices, Agile/Scrum, SDLC, Clean Architecture

EDUCATION

BTech in Computer Science and Engineering, ABES Engineering College

2019 – 2023

CGPA: 8.4/10.0

CERTIFICATIONS

- The Complete Web Development Bootcamp – Udemy (Full-Stack Development, Security Best Practices)
- HTML, CSS, and JavaScript for Web Developers – [Coursera \(Johns Hopkins University\)](#)
